WASHINGTON, D. C. 20505

National Intelligence Officers

NFAC #834-81

17 February 1981

MEMORANDUM FOR: Deputy to the DCI for Resource Management

FROM : National Intelligence Officer
for Warning

SUBJECT : [] Study

1. On 12 February, [] briefed the Warning Working Group on his plans to conduct a study of the Washington area intelligence centers' capabilities and plans to handle information from new collection systems in the FY 83-85 time frame.

2. The consensus of the group is that he would be better advised to review existing material on the subject, of which there is a plethora. If he can digest that and come up with some reasonably coherent recommendations, he would be doing the community a service.

3. We stand ready to provide him additional advice and guidance once his review of existing studies is completed.
